Secondary (X) – Dalmiya Vidya Mandir, Chirawa | GPA: 70% (2021)

Skills

Technical: HTML, CSS, JavaScript, React, Python, MySQL , MongoDB Java, MS Excel, MS PowerPoint, Data Analysis
Soft Skills: Leadership, Public Speaking, Problem Solving, Positive Attitude, Content Editing

Projects

1. SlotSwapper - Time-Slot Swap & Scheduling System
Built a scheduling management system that enables users to swap time slots through a structured request and approval process. The system improves scheduling flexibility and reduces manual coordination.

2. Currency Converter - Real-Time React Web App
Built a responsive React web application that converts currencies in real time using live exchange rate data. Implemented API integration, dynamic UI updates, and user-friendly input handling.

3. YouTube Auto Content Creator - Developed an AI-based system that automatically generates video scripts, creates videos, and uploads content to YouTube without manual intervention.

4. Smart parking - Built a MERN-based Smart Parking web app with live parking availability, OTP authentication, real-time updates (Socket.io), and booking with QR code generation.

Certifications

- Python – **CISCO**
- Google Cloud Career Launchpad - **Cloud Engineer Track.**
- Data Science Professional **– Oracle University**
- Employment Communication – **NPTEL**
- MongoDB Atlas Administration – **MongoDB**
- Introduction to Agentic Automation – **UiPath**
- Basics of C Programming – **LinkedIn**
- Machine Learning with Python – **Udemy**

Experience / Volunteering

IPL Volunteer – Coordinated logistics and supported on-ground operations during IPL events
Mentor - Delivered a learning session to juniors on MySQL.
